

20 April 2022

Dear parents and carers

Development of sports facilities at The Sevenoaks Education Campus

As you know, the sports facilities at the Sevenoaks Education Campus are being upgraded to include all weather pitches for each school additional hard and grass surface sports areas.

Kent County Council, with their contractors, will be breaking ground on this project at the end of this month, with the construction work taking place between now and September 2022, when we will take possession of the majority of the new facilities. We will not be able to use the current grass pitches once the work has begun, but will continue to work together to make best use of the available all-weather pitch and hard standings, as well as other external sports spaces to ensure all students have the opportunity to fully participate in sport through the summer-term.

All three schools would like to thank KCC for the development of our current site and for continuing to fund any additional costs associated with traveling to alternative venues whilst the work is completed.

We are excited to share more details with you on this major development of the Sevenoaks Education Campus as the works develop, in the meantime thank you for your ongoing support and understanding during this period of disruption.

Yours sincerely,

Mrs E Bone
Headteacher
Weald of Kent
