

DRAMA

The Drama curriculum aims to engage all students in creative and imaginative exploration of performance and presentation. Drama addresses core transferrable skills which support students' endeavours both in school and beyond.

The Drama curriculum builds each year in a logical progression of key skills and content.

A focus on proactive group work and building a resilience to compromise or offer constructive criticism alongside time constraints, ensures that students are able to make independent progression in their work. Students explore a range of social, political and historical scenarios across their school career which is underpinned by specialist drama knowledge and terminology.

Students become considerate commentators on the work they see, using peer feedback in addition to more formal assessment to reach exceptionally high levels of achievement in every key stage.

We believe that Drama should be a challenging yet fun inclusion in a student's timetable, which is supported by extra-curricular activities and trips. We provide a safe environment for learners to experiment with varied roles in both the devising process and performance.
